indelible impress of efficiency on it, is now a member of the Rajasthan Public Service Commission The resolution that the Syndicate adopted, when he resigned consequent on his appointment, is an eloquent testimony to the valuable services that he rendered

(e) Prof K S Hajela a Syndic, a Dean and a Principal, has been appointed the first Advocate General of the new United State of Rajasthan The Syndicate has now invited him to be an honorary Professor of Law in this University and his acceptance of the offer ensures the progress of legal education in our area

(f) Dr Daya Krishna Mathur Professor of Zoology, Jaswant College, Jodhpur, has been appointed for a year in the first instance, an investigator at Paris in the Department of Natural Sciences by the UNESCO

(g) The Vice Chancellor functioned during the year as the Chairman of the Inter University Board of India, which now comprises some 30 Universities including those of Burma and Ceylon He presided over the joint session of the Board and the Executive Committee of the Commonwealth Universities Association, (in Delhi December 21, 1951)

The Board has elected him to represent the northern Universities on the Council of the Indian Institute of Science, Bangalore, the southern Universities being represented by the Vice-Chancellor of the University of Madras.

The Interview Board of the Union Public Service Commission for the class I central services

IAS, IFS etc, includes an 'educationist of high standing," and this year the Vice-Chancellor was invited to serve as such.

He has also been a member (nominated by the Govt of India) of N. C C Central Advisory *Committee since its inception in 1948*

(h) Mrs Sharda Bhargava and Dr. K L Shrimali, both members of the Syndicate, and Mr. Ramanath Podar, member of the Senate, have been elected to the Council of States.

(i) Dr Shrimali has been appointed a member the nine man Secondary Education Commission

(j) Shri M V Mathur, the Reader and Head of the University, Department of Economics, was offered by the Government of India the post of Deputy Economic & Statistical Adviser in the Ministry of Agriculture. (k) The services of Dr P T Raju, Professor and Head of the University Department of Philosophy have been lent to the University of Illinios as a Visiting Professor of Philosophy to teach Comparative Philosophy to their M. A students for a period of eight months

(l) Dr K P Rode, Head of the University Department of Geology, was deputed

Smith College, Northampton, Massachussets (U.S.A.) She has now joined that college for a course of two years in Political Science.

2. Members of Senate will recall that last year the Government appointed a committee of some senior Principals of colleges to make suggestions to improve the University Act by removing its defects. The report of that Committee together with the suggestions of the Committee appointed by the Syndicate was considered by the Senate in its last meeting on December 13, 1951 The Views of the Senate were duly communicated to the Government. No legislation in that behalf has yet been undertaken; but I have addressed the Government in regard to the urgency of removing from the Act those sections, which have proved difficult to work in practice.

3. The following features in the Registrar's report may be underlined:—

(a) The University Library has been shifted to a fairly good hall in the deaf and dumb school; so also the classes of the Economics Department.

(b) Courses in M.Ed. have been started in the Vidya Bhawan College, Udaipur.

(c) The equipment for research in the Department of Geology is being strengthened as a result of the grant of Rs. 16,000/- from the Central Government.

(d) The Civil Engineering College started at Jodhpur has been making steady progress.

(e) The LL.B. degree of this University has been recognised by almost all the High Courts in India. Negotiations with the Calcutta High Court are in progress.

(f) During the year under report the University took possession of the 200 acres of land as donated on the occasion of the foundation-laying ceremony in 1949 It is hoped that the appointment of an architect and commencement of the building programme will no longer be delayed

4. Perhaps the most important development in the academic field during the year under report is the provision made by the University to enab e"in service" candidates to take higher education It is not a very easy problem because the University is to ensure that any steps it took in this behalf did not impinge on its academic standards The University Commission favour the solution by having separate evening colleges with separate full time staff (though not separate buildings) and lengthening possibly the course by a year The Commission does not advocate extending the categories of private candidates which are at present confined only to teachers, librarians and educational inspectors and women In the absence of full - time evening colleges, some universities like those of Poona, Agra and Rajputana have put into effect certain variants of the solution suggested by the University Commission So far as this University is concerned (i) 'in service' candidates are enrolled to attend evening classes which certain degree colleges are authorized to run (ii) the teachers of the evening classes are drawn from the staff of the colleges concerned, who volunteer to do the work but they are restricted to teach not more than one period a day, each (iii) the 'in service' candidates are thus intermediate in status to 'private' candidates on the one hand and full time day scholars on the other, (iv) the candidates will receive the same degree as others but in view of the deviations from the recommendation of the University Commission, in their Degree certificates an entry will be made ' appeared as an external candidate"

Neither the State Government nor the University attaches any disability to the external students But we are

naturally concerned to secure for them facilities at other universities We have, therefore, approached the Inter-University Board to appoint a Committee to examine these variants adopted to help in-service candidates and advise a common policy.

The following are some of the important decisions taken by the Faculty —

(1) One paper on "General Hindi" is to be added to the compulsory papers of Intermediate

(2) 'English Literature" is to be made one of the optional subjects for Intermediate

(3) Sanskrit questions should be put in Hindi papers for I A, B A, and M A carrying 15, 25, and 50 marks respectively.

(4) Changes in the courses are recommended by the respective Boards of Studies in History, Economics, Philosophy, Political Science and Civics, and Sociology, are to be introduced.

During the year under review 25 applications r eceived for permission to do research work for the

6. Ballastics has been introduced as an optional paper for the M Sc (Final) Mathematics examination In this connection the University also deputed 2 lecturers—Mr. S C Patni of Maharaja's College, Jaipur, and Mr C B Rathi of Dungar College, Bikaner, for three months' training in Ballastics courses at the Defence Science Organisation, National Physical Laboratory, New Delhi, and paid a deputation allowance of Rs 600/- to each of them

The University deputed Dr K P Rode, University Reader in Geology to attend the 19th Congress of the International Geological Congress held at Algiers

The total number of colleges affiliated to the University in Science subjects rose from 14 to 17 (including 8 Degree and 9 Inter Colleges out of which 4 teach upto post-graduate standard)

S D ARORA
Dean, Faculty of Science

FACULTY OF COMMERCE

The demand for higher commercial education has been growing fast in Rajasthan, the native home of rich Marwari Bankers, businessmen and industrialists

This is apparent from the growing number of candidates who appeared at the University Examinations In 1952, 821 candidates appeared for Inter Commerce 833 for B Com, 70 for M Com Previous and 39 for M Com Final Examinations There are four colleges which are teaching for M Com and during the year under review two more institutions were given provisional affiliation for Inter Com Examination of 1954 and 1955.

New courses of study have been framed for M Com and B Com Examinations M Com courses have been a great improvement on our previous course but B Com courses have still to be revised The opinion in the Faculty of Commerce is gaining ground that we should re introduce B Com Previous examination in order to do full justice to the cause

Candidates for Intermediate in Commerce Examination can answer their papers in Hindi in all subjects except Mathematics and candidates for B Com Examination can also answer their papers in Hindi except in Commercial Law, Statistics and Mathematics

The number of candidates registered as Ph D research scholars during the year under review was 2 and both of them were granted permission to supplicate for Ph D degree

S S SAXENA
Dean, Faculty of Commerce

FACULTY OF LAW

1. During the year under report, the meeting of the Board of studies in Law and Faculty of Law were held on the 29th July 1951 and the 9th December 1951 respectively. The Board of Studies allowed the existing syllabuses for the LL B (Previous & Final) and the LL. M standard to continue for the ensuing examinations In the meeting of the Faculty of Law held on 9th December 1951, the following important resolutions were passed unanimously:—

1. That in order to attract the best available talent and raise the standard of the Law Departments and Law teaching, it be recommended that the post of the Head of the Department of Law should be in the grade of salary equivalent to that of a Professor in a Professional College like that of Engineering or Medicine

2 That the Faculty recommends that the first proviso in O 251 be deleted and the students be henceforth allowed to combine studies for the Final Examinations in Law and the Masters Degree in Arts, Science or Commerce.

The Faculty considered a reference made by the University and was of the opinion that in view of the clear provisions of O 252, candidates who had passed the Post-Graduate Examination after having passed the B A Examination in English only were not eligible for admission to the LL. B. classes. The Faculty co-opted Shri R. N. Varma, M. A. LL. M., Reader in Law College Jaipur, as a member of the Faculty in place of Shri Ram Kishore Vyas who had ceased to be its member owing to resigning his post as a part-time lecturer in the Law College, Jaipur, consequent on his election to the State Legislative Assembly I am happy to record

that Shri Ram Kishore Vyas is now the Minister for Law, Justice and Industries in the Cabinet of Ministers of Rajasthan

2 The fourth batch of the LL B Final students appeared at the LL B. Degree examinations held in April 1952 and out of 378 candidates who appeared at the examination 268 were declared successful.

3. The proposal for starting LL M. classes, which was under the consideration of the Government of Rajasthan for some time past materialised during this year and the necessary *sanction for starting the LL M (Part I) class at the* Law College, Jaipur, was granted by the Government of Rajasthan Accordingly, with the consent of the Vice Chancellor of the University of Rajputana, LL M. (Part I) class was opened at the Law College, Jaipur in September 1951 with 23 students on the rolls Consequent on their application for affiliation to the LL M standard, the University Inspectors inspected the Law College, Jaipur in February 1952 and as a result of their report, the College has now been granted provisional affiliation for the LL M. standard with effect from July 1951 upto LL M. (Part II) Examinations of 1955 under certain conditions laid down by the University regarding the teaching staff, the library and the accommodation for class rooms. As the institution of LL. M studies was pressing and persistent the affiliation of the College to LL M. standard by the University will go a long way to propogate advanced studies in law under the University.

17 HIGH SCHOOL EDUCATION

The revised scheme of the High School Examination was put into force from July 1951 Special features of the Scheme are:-

1. There are five compulsory subjects with one paper in each viz., English, Hindi, General Science, Social Studies and Elementary Mathematics.

2. Two optional subjects out of several optionals grouped according to academic considerations.

The first batch of students under this scheme will appear in March 1953. For the failures of 1952, however, facility has been given to either appear in the new scheme or in the old scheme.

With a view to acquaint the teachers and the students with the standard to be obtained under the new scheme, the University has got Model question-papers set by selected persons who had long experience of

High School teaching associated with other experienced examiners These will be forwarded to the Examiners, students and the institutions.

The total number of candidates, who actually appeared at the High School Exmination of 1952 was 10,420 out of whom 5044 candidates passed The percentage of passes was 48% A Supplementary examination, as usual, was also held in August 1952 for those who had failed in one subject at the High School Examination af 1952 714 candidates passed out of 916

The number of recognised High Schools in the year 1951 was 209 10 Schools were granted recognition to open High School classes this year and one School viz Walter High School, Abu, ceased to be on the recogtnsed list - Abu having been merged with Bombay At the commencement of the year 1952 53, the number of recognised High Schools, therefore was 218

Periodical inspection, which is done once in every five years for every High School, was conducted in the year 1951-52 of 9 High Schools The essential conditions and recommendations pointed out by the Inspectors, for further improvement of the Schools, were intimated to the authorities of the institutions

The Annual Returns submitted by the High Schools were scrutinised by a Committee appointed by the Board of Inspection The points of scrutiny in most of the institutions were mostly that teachers were doing more work than they should under the University rules, teachers of General Science did not some of them possess the minimum qualifications as laid down by the University In a few institutions it was also noticed that there were some vacant posts of teachers and suitable and adequate number of journals were not subscrided to These defects were pointed out to the authorities and steps are being taken by them to rectify the same

FINANCE

The Financial year 1952 (January to December 1951) commenced with an opening balance of Rs 3 ,05,830/- The income during the year was Rs. 10,06,921/. A sum of Rs 500,207/ was received on account of examination fees.

The expenditure during the year was Rs 8,39,308/. The year closed with a credit balance of Rs. 4,73,142/ In addition to this the University had the following

1.	Government Securities (Face Value) Rs.	1,95.000/—/-
2.	Savings Bank Account with the Jaipur Bank Ltd , Jaipur.	10,459/ 2 /-
3.	Fixed Deposit with the Bikaner Bank Ltd. Jaipur.	20,000/—/-
4.	Advance with the University Deptts.	300/—/-

6	Advance with the Electric Deptt	60/—/-
7.	Unspent Balance with the Despatchers	733/11/9
	Total	2,26,802/13/9

Further details of Income and Expenditure are given in Appendix V.

With the introduction of the revised scheme for the High School Examination with effect from July 1951 (in preparation for the examination of 1953), General Science became a compulsory subject It was observed in general that teachers possessing the requisite minimum qualifications prescribed by the University were not appointed in the recognised High Schools This was brought to the notice of Director of Education, Rajasthan who admitted that it was so but he was helpless because of the general dearth of Science graduates in Rajasthan He however assured that every effort will be made to appoint qualified teachers to teach General Science and that it was not expected to take long before every recognised High School would have a qualified teacher to teach General Science to the High School classes

Other points that were brought to the notice of the Director of Education Rajasthan were that in several High Schools post of teachers remained vacant for several months, which resulted in serious loss of studies to the students and most of the provisionally recognised High Schools could not obtain permanent recognition because the conditions laid down by the University in respect of grants (recurring and non recurring) and specially the buildings have not been fulfilled With regard to the vacant posts of teachers and grant the Director of Education replied that with the final completion of integration of the Education Departments in various units and passing of the budget these defects were being rectified But with regard to the fulfilment of conditions in respect of buildings, the Director of Education said thatg owing to financial stringency and non availability of buildins material it would take some more time for the Government to fulfil these conditions

5. FINANCES —The total expenditure of the college during the financial year 1951-52 was Rs. 3,568-2-8 while the income amounted to Rs. 45,664/.

6. BUILDING —The law classes are held during the morning hours in summer and in the evening during winter The classes are held in the spacious Physics and Chemistry Theatres of the Maharaja's College. The Maharaja's College building is a fine and grand structure and the class rooms in the college building are available for use of the law classes according to our needs.

LIBRARY —During the year under report the Government made a 1000/- recuring and Rs 2000/- non recuring for library books. was duly spent in the purchase of books. The library now 1300 books inclusive of Law Reports of the value of about /-.

Needy Students' library was instituted under the auspices llege Union. The initiative for starting the Library came from Shantilal Durlabhji, an ex-student of our college

During the term of his office as President of the college Union, Shri ilal Durlabhji donated a sum of Rs. 500/- for the purchase of books library. In this connection we are much beholden to Seth Sohanlal o contributed munificently to the funds of the Needy Students' Library by donating a sum of Rs. 3,100/.

During the year under report about 100 students both in the Previous and Final classes were helped with complete sets of course books from the library. The library was put in charge of Shri R. N. Verma, M.A., LL.M. who conducted the work efficiently.

11 GENERAL—The proposal for starting LL M classes, which was under the consideration of the Government of Rajasthan for some time past, materialised during this year and the necessary sanction for starting the LL M (part I) class was obtained from the Government

Accordingly after consulting the Vice-Chancellor, LL M (part I) class was opened in the college in September 1951, with 23 stndents on the Rolls

We are very grateful to the Vice Chancellor for according provisional permission to start teaching of the LL M class subject to the formal affili ation of the College to the LL M Standard by the University

Consequent on our application for affiliation the college was inspected by the University Inspectors on 1st and 2nd February 1952 and as a result of their report the college has now been granted provisional affiliation for the LL M Standard with effect from July 1951 upto LL M part II Examination of 1955

As the demand for the institution of LL M studies was pressing and persistent, the affiliation of the callege to the LL M standard by the Univer sity will go a long way to propagate advanced studies in law under the University

During the year under report, the University made a special allocation of Rs. 5000/- for the purchase of law book for LL. M standard and we have been greatly benefitted by the transfer of the Law Section of the University Library to our college with the kind permission of the Vice-Chancellor.

The newly started Literary Circle staged an admirable Mock Sesssion of the U N O

12 HOSTELS—The Engineering College is a fully residential College and 367 students were residing in the Hostel Common Rooms have been provided with Radio, Reading Room, Indoor Games and other amenities

13 DISCIPLINE—The discipline of the College was very good

14 GENERAL—During the year the Second and Third batch of Engineering Graduates passed out in April 1951 and September 1951 46 Graduates in Mechanical and 37 in Electrical Engineering total 81, were awarded their Degrees at the Fourth Annual University Convocation held on 10th December, 1951 It is gratifiying to note that the Second Batch of Engineering Graduates from Rajputna University with the exception of few have all have been employed The outstanding success was the selection of five of our students for commissons in the I A F Technical Wing and two of our students for commission in the Indian Army from the April 1951, Batch. September 1951 Batch is undergoing its practi

fowarded the degrees at the Convocation to be held during this year. Two of our students from September batch have also been selected in the Indian Army.

This is indeed a very creditable records for the Second Batch of B. E., Degree holders of the University of tne Rajputana and they are keeping the flag of the Birla College of Engineering flying very high.

7 BUILDINGS — The building is fast becoming too small for our growing needs Repairs worth the name have not been taken up in hand For some time repairs in the Hall and its front and those of Black Board etc were done by ourselves

The playing fields, too, need being made more extensive Enlargement *of play-grounds under contemplation The bo s money is responsible for the* small sports track that is coming up, and the maintenance and upkeep of playing fields The lawns in front of the College made at tremendous cost of human (boys) energy and time, got ruined owing to water scarcity

8. LIBRARY & READING ROOM — 195 books worth about Rs. 425/- were added to the College Library. We have reasons to believe that our facilities are being increasingly used to good purpose by our students and members of the Staff 10542 books were issued during the year. We spent Rs. 235/9/6 on news papers and monthlies. The Hindustan Times both in Hindi & English, The Times of India, Modern Review, March of India and the Economic Journal were very papular.

9. GAMES & SPORTS — In the physical field, we were for the first time represented in Volley Ball and Basket Ball in the University Tournaments Games for all, just as Class-room lessons for all have been the very breadth of our nostrils Keen sportsmanship was evident on our Final Sports Day. The In er Class Matches in Volley Ball, Basket Ball, Foot Ball, Dodge Ball were all full of excitement In each, we had a District Official as the Chief Guest. Refreshment for-all and Rest-for-all, we tried during day college months Mid-day snacks developed into full day meals for some but for others they dwindled into a little dried fruit or parched gram or a morsel of bread. Of recreative and social meets, we have had a plenty.

(iv) Human Rights Day On the 10th December 1951 we celebrated the Third Anniversary of Universal Declaration of Human Rights

A meeting of the members of the staff was convened in the College Hall at 3 30 p m to commemorate the adoption of Universal Declaration of Human Rights by the U N General Assembly Shri Satya Narain Joshi M A (Pr) introduced the subject to the audience and sqoke on the topic He pointed out what human rights were and how the Declaration was adopted He was followed by student speakers Luckily the function coincided with the Gita Jayanti and advantage was taken of the occasion to quote parallel verses from the Gita which is an authority on Human Rights The Chairman Shri M L Gupta, M A Vice-Principal wound up the fuuction by remarking that unless Human R ghts be vouchsafed to humanity, the talk of peace is a mere cry in the wilderness

12 HOSTEL —The college hostel continued to be run on sound lines, Shri M L Gupta being the Warden Incharge

The students Advisory Council managed affairs of the Hostel as usual and ran the programme on the Independence Day and the Rajasthan Day Common Dinner usually arranged could not be held owing to General Elections College students also res de in the Jat Hostel, and the Shri Krishna Chhatravas, the later being mainly util zed for Harizans

Features —One of our uniqe features was that we tried to get out of the rut as and when we could do it Here is a quotation from the Principal s speech on the Prize-giving of the College on the 8th May 1952 under the Presidentship of Dr M L Sharma, Director of Education Rajasthan

' To pastures new we always try to take our flock We think that it is a teacher s job to go on creating new situations It is new situations in which we have to exercise our brain The old situations, the same reactions and resu ts are mere negation of education The same thing over and over again though ensuring excellence in some ways is fruitless from the educa tionist s point of view, whose business it is not so much to secure perfection in a particular task as it is to exercise the mental faculties which alone can mean their development or growth

The popularly known teli s bells' does not get educated at the end of a long toilsome life in any sense of the word, though it does go round and round in its 'chakkar, day in and day out The same oil is crushed out of the seeds, without any conscious effort and skill It behaves like an automaton, a part, a small part a mere cog of a machine If the situation changes the stimuli rep esent a variegated hue, the reactions vary, the responses are uncertain and

varied and the teacher gets an opportunity to educate which he would not get otherwise In the hands of the Scientist, the 'Tailies wheel' has been changed into a machine which goes on improving adinfinitum.

"The teacher has to pay the Scientist's roll What a Scientist is to the machine, the teacher must be to the taught We know, "there is an unseen atmosphere of aspiration that surrounds a place". But we know, too, that it cannot be based entirely on no-change or tradition, we suffer from a wrong tradition "

During the year we did not weed out our luxuriant growth, neither at the time of seddling nor at the time of blossom We were neither strict at the time of admissions nor at the time of promotion. To quote again from the above Report I am reminded of what a poet once sang 'That only weeds unfold just naturally". We believe that regular, hard work throughout the session more or less earns promotion. Mostly dried up seedlings get revived under proper care sun shower To take another metaphor, though we care for the 'peaks' we also equally try to help the lame dog over the stile.

After all, examinations are a necessary evil and their findings in their present form with their methodological indaequacy, fitful, whimsical, unreliable We know the tale 'The Examiner's Examination tells. We attach more importance to our opinions about students work, day in and day out, here, there and everywhere

Our home examinations, in particular, are only 'net' practices, otherwise they string our nerves and upset our brains I shudder to think of the colosal waste this cruel system, foreign to our land has brought and still persists in bringing about, when it is on its last legs in the lands of its birth. It is an exotic growth which doesn't appear much use either to the educand, or the teacher, or the society. We used to put full faith in Guru's Sammiti about the Scholar and 'Ashirvad' for his pupil's suceess These two were talismans, which could work miracles unlike paper parchment we get now. The President Dr Rajendra Prasad the other day talked about the sacred, Guru Chela' relationsmip but before it is restored to its pristine glory, many steps have to be taken, one of them must be I dare say, highly to value and appreciate Guru's evaluation of his Chela

Another experiment was a prologation of another experiment in hand for the last three years If was the mangement of boys money through boys 'accredited representatives with an increasing measure of responsibility broadening from precedent to precedent'. It helped in engendering leadership, in stimulating a sense of love and pride in the institution and creating an active band of workers among the students.

13 DISCIPLINE - -A very important feature was to keep boys engaged throughout the College hours and to channelise the 'surplus energy' in them through so many of our associations and societies working under proper supervision- daily games for all, attempts at refreshments for all and inculcating habits of extra reading etc are instances in point Hence our discipline, even unwholesome influence and hard environments, remained exemplary

Our work during 'Elections' provided still another example The three weeks after the winter break were exceptionally strenous for the staff which had for the most part thinned down for over two weeks to three or four, more than 80% having gone away on Election Duties in the entire Sikar District Most of the IV Class servants too were similarly away A handful of teachers had to keep usefully engaged The call to the 'armoury' of teaching was exacting but we found the experience exhilarating, and rose equal to the task in every sense of the word

Realising that giving individual attention alone does not exhaust an educator's duties, we took recourse to that part of our work where sympathy of numbers counts for most Story telling, poem teaching, and other open air pursuits enabled only a small number of teachers to cope with the work

Every day we finished off with some athletic activity Section wise matches on a league basis in Foot Ball, Volley Ball, Basket Ball, Dodge Ball, Tunnel Ball, and competitive sports- races, individual and relays, mixed relays, including climbing trees, cycling, hurdles etc were the order of the day

14 GENERAL -Kr Gajraj Singh, the Deputy Director of Education paid us two visits We have every reason to believe he went away well satisfied

Dr M L Sharma, Director of Education Rajasthan, too, was kind enough to preside over our College Prize Distribution function The Director of Education, stayed here one evening, one full day, and one morning and could see us inside out at the fag end of the session We know that he went away throughly satisfied with the excellence of the tone of the College, its uptodateness, and quality of varied performances

The Education Minister, Shri N R Mirdha's visit was utilied to get the Sikar Branch of Red Cross Society inaugurated by him in the College Hall amidst the gentry and officials of the town

9 Games, Sports and Medical Examination of Students.—Special emphasis is laid on the physical training of students Attendance at games is compulsory for all students of the college and they are required

to take part in games like, Throw ball, Badminton, Tennikoit, Ping-pong, Volley ball, Baseball, Kabaddi, Tug of war, athletics and several indoor games. There is a qualified Physical Instructor (part-time) and one of the lady members of the staff is in-charge of athletics and games.

All students of the college are medically examined once a year by lady Doctor assistant by the teacher in charge of a atheletics and games. The records of such examinations are systematically maintained and a proper advice and guidance are given to students found to suffer from remediable physical defects and deformations and their parents are informed about their defect. Last year during the health week one of our students Miss Vimla Verma got the prize for having been declared as second best healthy students in the Competition.

10. Scholarships, Stipends, Medals and Concessions in Fees — There is provision for exemp ting 25 percent of the students on roll from payment of tution fee in case of dire poverty. Every type of possible help is given to the deserving students.

- 1. Extra-Curricular and Social Activities —Open Air Session-During the session original work and self study are done This helps to cultivate self reliance, discipline, Society life, sportsman spirit and responsibility. This time the project was Mewar and the session was held for a fortnight at Jaisamudra The students were divided into different groups While each group worked independently of the others, it was being supervised as to present a compact and connected and complete picture of the whole when furnished.

In addition to the project work, the students study the local place and People, their culture and life and social customs, and do the economic and social survey of the people and the geographical survey of the place as well.

2. Student's Union — Every student of the senior section is a member. This union helps through an elected executive to organise literary, social and athletic side of the life of the college. Saturday is the Union day when they organise their literary and Social function. The main function of the Union was held on the 30th of April and was presided over by the Hon' ble Chief Minister Shree Tika Ram Paliwal. The function with its variety show was a great success. The Students' Union observed the following memorable dates in a be fitting manner:

14 SOCIAL & CULTURAL ACTIVITIES —In order to establish a closer contact between the students and the staff and to organise the social and cultural programmes of the College the students were divided into 5 Societies according to the subjects they had offered for specialisation These societies functioned as separate units for organsing these activities and cooperated with one another for the general programmes of the College organised by the College Union.

The most note worthy feature of these activities was the organisation of a regional Geographical Conference by the Geography Society The Geography teachers from Jodhpur and Udaipur Divisions were deputed by the Department to attend this Conference The themes discussed at the Conference were —

(i) The Place of Geography in the High School curriculum of the Rajputana University and (ii) The Importance of Geography in Developing International outlook

It is regretted that the work of the union suffered throughout this year on account of a lack of harmony and co-operation among the office bearers At the close of the session the union had to be dissolved and an Ad hoc Committee appointed to look after the union affairs during the rest of the session

As usual the Union organised an Educational Mela on the 15th August 1951, to celebrate the Independence Day. The Union organised a variety of programmes They ran a restaurant in which every item of service from the pitching of the tents and cooking, to the serving and cleaning of dishes was done by the students themselves. The number of shops and stalls were increased

this year and were run with great enthusiasm. The people of Udaipur came in large numbers to participate in the cultural and recreational, programme. The Mela gave the students an opportunity to serve their community and the same time to develop initiative and leadership.

15. HOSTELS :—The College has no hostel building of its own, and therefore the students were accommodated in rented bungalows.
